MEMORANDUM FOR: Deputy Director (Support)

SUBJECT: Request for Approval to Utilize Mine Ceiling Allocations Now Held in Reserve by the Deputy Director (Support)

REFERENCE: Memo to D/L from DD/S, dated 30 January 1957, subject: Increase in Personnel Ceiling

1. This memorandum contains recommendation for Deputy Director (Support) approval. Such recommendation is contained in Paragraph 6.

2. At the time the Administration Building Printing Plant was transferred to the Printing Services Division/OK from the Government Printing Office on 13 January 1957, the T/O strength was [redacted] positions, of which [redacted] were filled. Referenced memorandum directed this Office not to fill any of the nine vacant positions prior to obtaining Deputy Director (Support) approval.

3. During the operation of the Administration Building Printing Plant by the GPO, the T/O strength ranged up to [redacted] positions. The experience of the GPO was that the demands of MIS printing and that of other customer agencies required a T/O well above [redacted] positions. As the on-board strength at the time of the transfer was less than the personnel complement usually operating the plant under GPO management, it is apparent that GPO had not taken action to maintain minimum strength prior to this Agency assuming control. Even though the workload at the time of the transfer was considerably lower than it is at the present time, the on-board strength at that time was insufficient to maintain adequate production. Experience with the plant plainly indicates that [redacted] employees will be an absolute minimum with which the plant can operate. Even with this number, substantial overtime will continue to be required to maintain adequate production of MIS sections during peak periods.

4. This Office has experienced considerable difficulty in obtaining personnel to replace the former employees of the plant who returned to the GPO rather than transfer to the Agency. In order to temporarily fill some of the positions for which replacements have not as yet been obtained, arrangements were made to obtain eight employees on detail from the Government Printing Office. In accordance with prior agreement, all of these employees are to return to the GPO on 25 November 1957. This

UL 7 5631

**SUBJECT: Request for Approval to Utilize Nine Ceiling Allocations
Now Held in Reserve by the Deputy Director (Support)**

Will leave vacant eight positions to be filled by new recruits.
Recruitment actions have been initiated in each case and some of the
replacement personnel are about ready to enter on duty.

5. Because of ceiling reductions, the Printing Services Division
does not have personnel ceiling allocations (other than the nine held
in reserve by the DD/S) which can be utilized for filling the needed
positions. The nine reserve allocations are included in the Office of
Logistics ceiling and were funded in the 1950 Budget. Therefore, the
use of these allocations will cause no increase in the Printing Services
Division or the Office of Logistics ceiling.

6. In order to fill existing vacancies and to bring the Adminis-
tration Building Plant T/O up to the required minimum number of posi-
tions, it is recommended that the nine ceiling allocations held in
reserve be released.
